Funding Categories

Please select the appropriate funding category for your project: Regional

Please describe how your project will benefit three or more hubs in an equitable manner?

Since 2004, 12 Bay Area counties have been preparing for a widespread bioterrorism incident whereby antibiotics would have to be dispensed to over 7 million people within 48 hours. Dispensing practices and public messages regarding mass prophylaxis must remain consistent. The Bay Area Mass Prophylaxis Working Group (BAMPWG) comprised of 12 jurisdictions is working collaboratively toward that goal.

This field is limited to 500 characters.

Project Description

Select a goal: Goal 3 - Communications

Please note: Your project must align with and available priority capability objective for this fiscal year. If your project aligns with an unavailable priority capability objective it may be deemed non-complaint. Please click here to review all of the Bay Area UASI Homeland Security Goals & Objectives

Select a Priority Capability Objective: Objective 3.2 Emergency Public Information and Warning

Objective

Select the most applicable FEMA Core Capability for your project: Public Information and Warning

FEMA Core Capabilities

Select a nexus to terrorism: This project will enhance regional capacity to: Mitigate Effects of Terrorist Attacks, Respond to Terrorist Attacks, Recover from Terrorist Attacks

Select all that apply

Describe the nexus to terrorism in detail:

An anthrax bioterrorism attack would involve dispensing medical countermeasures to over 7 million people within 48 hours. In the Bay Area, where media markets are shared and people are highly mobile it is critical that dispensing and public messages regarding mass prophylaxis remain consistent.

Select all applicable outcomes:

No

a) Implement emergency public information and warning systems that are interoperable, standards-based, and use a variety of means to inform the public.

Yes

b) Disseminate prompt, coordinated, clear, specific, accurate, and actionable emergency public information and warnings to all affected members of the community.

Yes

c) In the event of a catastrophic event, provide warning and timely updates to information regarding availability of resources, evacuation routes and triage locations to the roughly 8.3 million people and major businesses in the Bay Area despite disruptions to public warning system and private-sector media sources (THIRA).

No

Project Summary- Provide a brief description of your project: For planning projects include a final deliverable.

BAMPWG has created a regional website, www.BayAreaDisasterMeds.org (BADM), offering comprehensive medication screening and real-time risk communication, and public information and warning for the general public. The web-based screening tool allows the public to rapidly identify the medical countermeasure appropriate for each individual. This life-saving critical resource, however, lacks the mobility and accessibility of a mobile application. This project will produce an updated website User Manual as well as BADM mobile application.
