Course Description:

AWR-140-W (3 hours of web-based training) provides an introduction to Radiological/Nuclear WMD operations for first responders and others, who may be tasked with response or support missions. The course provides fundamental knowledge regarding recognition of the threat or incident, protective measures, notifications and securing the incident area.

To register: http://www.nts-ctos.com

"**Sign in**"

Select "**Course Catalog**"

HINT: Search for this course by using the "keywords" search option and enter: 140

Select the "**show**" link

Select "**enroll in class**"

New to the Web Campus? Select "New User" to set up your CTOS account.

Note: all participants must have a FEMA student identification # (SID) to create an account. If you do not already have a FEMA SID go to https://cdp.dhs.gov/femasid/register

If you have questions with the enrollment process, please contact us at:
ctosreg@nv.doe.gov

This web-based course is a prerequisite for upcoming Securing the Cities (STC) San Francisco Bay Area (SFBA) training including Primary Screener/Personal Radiation Detector and Secondary Screener/Radiation Isotope Identifier Device courses that will begin in June.

Tuition and Registration

There is no cost for attending this course. The course has been funded by the Securing the Cities (STC) San Francisco Bay Area (SFBA).

Registration is through the CTOS — Center for Radiological/Nuclear Training —>

Target Audience

Law Enforcement Officers, Firefighters, EOD Units, and HM Teams

Priority will given to STC SFBA agencies
