2022 Bay Area UASI PUBLIC SAFETY PREPAREDNESS SUMMIT

CYBER RESILIENCE SEMINAR

Strengthening cyber resiliency throughout the Bay Area — together!

Identify strategies to better align information security, business continuity, and organizational adaptability.

Discover best practices, tools, and services available to bolster cyber programs.

Connect with peers and find out about real-world cyber initiatives from across the nation.

JOIN US!
NOVEMBER 2-3, 2022

The Cyber Resilience Seminar will engage attendees in discussions addressing the governance and operational processes needed to effectively bolster an organization's ability to continuously deliver intended outcomes in the face of adverse cyber events.

With insight from industry experts & peers with interdisciplinary expertise, participants will explore the current cyber landscape; identify tools available to their teams; be empowered with actionable advice on how to protect, defend, and evolve their cyber initiatives; and have opportunities to network and communicate with peers.

Join this seminar track and learn of the latest cybersecurity strategies and resources to build a more resilient cyber community – together.
