Background:

The purpose of the Virtual Security Operations Center (VSOC) Project is to create a framework for a regional VSOC cybersecurity governance model. This project will research and evaluate local and national best practices and provide recommendations to regional cyber stakeholders on different governance structures. This project will provide the foundation for the development and implementation of a larger regional VSOC project applied for under the 2021 UASI National Priority Project grant.

Discussion:

Regional Project Manager Mikyung Kim-Molina will present an update on the VSOC project. The attached Appendix A is an accompanying PowerPoint presentation.
